## **Section A – Introduction:**

### **A1 – A Note to the Head Teacher:**

Before you devise your school health and safety policy, please read the following information:

1. Your policy must be kept up to date as it shows how you manage health and safety in your school.
2. You should involve staff and governors when devising the policy, and ensure that all staff are aware of what the policy means for them.
3. Some schools prefer to devise a short policy and cross-reference to other documents held in school.
4. The head teacher and chair of governors should sign and date the policy, and it should be reviewed annually.
5. As the policy is a management tool, it will be the first document you are asked to produce when visited by HSE inspectors and KCC auditors, where applicable.

### **A2 – The Law Regarding Health and Safety Policies:**

A written health and safety policy is a statutory requirement where an employer employs five or more people. It must be brought to the attention of the employees, and shown to an HSE Inspector or KCC auditor if requested.

An explicit safety policy demonstrates to staff, pupils and visitors that the organisation values their health, safety and welfare.

The allocation of responsibilities and the writing down of particular arrangements to implement the policy encourages a coherent approach to the management of health and safety.

For schools who are developing or revising their health and safety policy, this guidance and suggested detail can be presented to staff for consultation, to add specific content. After any appropriate re-drafting, this can then be presented for approval to the school management team before final adoption by the governing body. Therefore, writing the policy in consultation with all staff clarifies the arrangements made and helps give them ownership.

This process also provides for information to be shared later with others such as visitors and contractors.

The policy will then be reviewed annually in line with the cycle on the management plan but will be amended if new legislation/procedures etc. make this necessary.

Health and Safety at Work Act 1974
