

Mr Thorne Does Phonics

Mr Thorne's phonics apps are fabulous! There are two apps to support the teaching of phonics, covering sounds, blends and tricky words - in an English accent! (£4.99 each) There is also a new matching pairs app (£2.49)

Twinkl phonics

is the home of some great free educational resources. They are now moving into the world of educational apps and have a great phonics one that will compliment work going on in class.

Letter Lillies

A free app with the option to purchase more levels. You listen to the sounds given and match the correct letter. Three difficulty levels.

There are 15 apps altogether, but the 'suite' (£4.99) includes most of them. The buried treasure game (£2.49) is a favourite of children when we play the board game version.

Hairy Letters

An app that was recommended by @skinnyboyevans and you can see his son doing his homework with it Learn letter names and sounds and practise your handwriting too! £1.99

Mr Thorne Does Phonics

We love using Mr Thorne's apps in class and so we told him! He is now using one of our photos in his app store :)

The phoneme pop suite is a great little addition to your phonics work too (£1.49)

What would you add here?

Please let me know if you have any other favourites that will compliment mine!

Pocket Phonics

Another favourite with my class. Practise writing the letters as you learn the sounds, then play some word games using the sounds.

£1.99
